

ps3: presenting piece of research done by others and relevant for this class

[version: Monday 3rd February, 2020 17:33]

due after spring break; but start early: takes time to read a book/bunch of articles

1. pick a book from syllabus or from slides; or at least 5 full journal articles and have a **20min** presentation about it/them
2. also include your brief evaluation of the argument made [not just a summary of the research!]
3. make it useful to classmates: some easy to remember takeaways
4. the “so what” question
5. be prepared to answer questions
6. email listserv asap about what you’ll present!

general directions (always the same):

- submit ps into Sakai’s dropbox by the beginning of the class on the day it is due (ps are due in one week from the date being posted unless stated otherwise)
- preferably submit as pdf or txt (word sometimes mutates contents)
- note, if something unclear, you may ask questions in your ps, and i will answer in class
- if class is small, be prepared to briefly present the ps, no need for slides, can just use submission pdf, but be ready to explain and answer questions
