very important  
point: SOcial  
distance

yes, my experience  
too--poland  
it is extended family  
friends, etc  
US:nobody  
interferes  
with my business  
but there  
are more  
regulations  
to keep it  
intact

each person  
is more extreme  
in the US than  
elsewhere,  
more specialization  
more freedom  
less mores,  
less soc contro

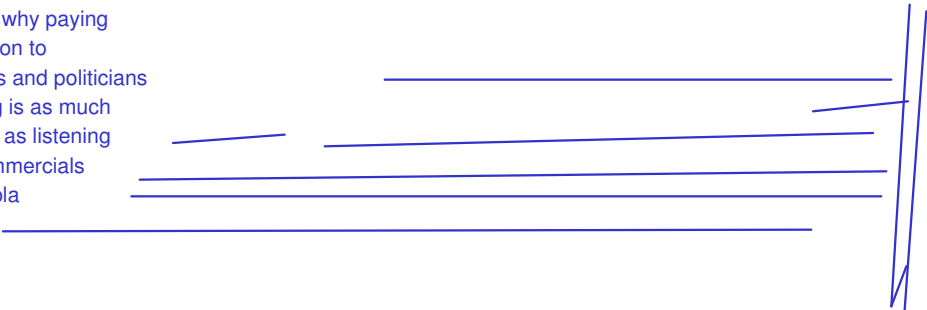

1

yes, and especially now  
IT APPRoach could  
be better

but in general  
some meritocracy  
would be good

this is why paying  
attention to  
politics and politicians  
talking is as much  
useful as listening  
to commercials  
--babbla

yes, not only  
brukowce like fakt  
but all of them do  
social engineering  
populism,  
manipulation, try  
to achieve some  
goals, that's  
why i do not read  
them and do not  
watch tv

||

yes! social distance;  
disconnect from  
your community;  
disconnect from mores

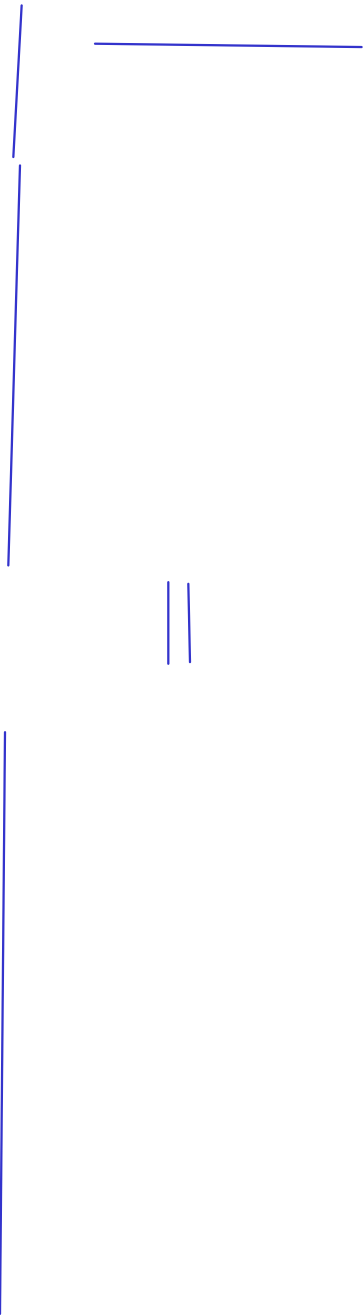

yes! in fact over-  
stimulation per  
ederbogen11

evolutionary  
is the word

specialization

yes as in freud's  
civ and its  
discontents  
and as in soc cage  
--city frees men  
it is a lure of the  
city
