

Spyder

- ◇ kind of like Stata or RStudio
- ◇ on the left we have code
- ◇ and it runs on the right in 'console'
- ◇ and some other less useful windows that you can drop
- ◇ at the top a bunch of menu items
- ◇ but most of the time just highlight code you want to run
 - and hit:
 - green 'play' triangle icon with blue rectangle to the left
 - or better just press Ctrl-Enter to run selection
 - note: for win paths may need double backward slash \\
