## academia: assisting faculty

- ◇ most faculty want maps but lack gis skills
- ◇ this is where you come in
- ◇ ask faculty around if they need help with data
- ◇ don't sell yourself cheap
  - ask to be a coauthor
  - make \$

## postdoc/research institutes/think tanks etc

- ◇ many prestigious universities offer postdocs positions
  - often helping prestigious faculty with data
- ◇ money is not great
  - but you have all of the other benefits of academia
- ◇ same with research institutes
  - they have a ton of data
  - and need people like you to map it

## non-academic, real world jobs

- ◇ any organization has data
  - libraries, gas stations, fire departments, hospitals, etc
- ◇ just search for gis jobs

# gis jobs

- ◇ <http://www.gjc.org/>
- ◇ <http://www.gisjobs.com/>
- ◇ [http://www.geographyjobs.com/GIS\\_Jobs.html](http://www.geographyjobs.com/GIS_Jobs.html)
- ◇ <https://www.gislounge.com/job-listing-sites-in-gis/>
- ◇ <http://www.mygisjobs.com/>
- ◇ <http://www.indeed.com/q-GIS-jobs.html>
- ◇ (there are many more websites)

# general data science jobs

- ◇ <http://web.ccsu.edu/datamining/jobs.htm>
- ◇ <http://www.kforce.com>
- ◇ <http://www.icrunchdata.com/>
- ◇ <http://www.cybercoders.com/>
- ◇ (there are many more websites)

## class evaluations

- ◇ i very much care about this class
- ◇ and want to develop it further in the future
  - possibly have intro and advanced gis; even a certificate!
- ◇ comments/suggestions are very welcomed!

## let's stay in touch

- ◇ i am always happy to discuss gis and
  - your future gis endeavours
- ◇ let's stay in touch!
