

ps3: presenting piece of research done by others and relevant for this class

[version: Wednesday 4th April, 2018 08:04]

due after spring break; but start early: takes time to read a book/bunch of articles

1. pick a book from syllabus or from slides; or at least 5 full journal articles and have a 15min presentation about it/them
2. also include your brief evaluation of the argument made [not just a summary of the research!]
3. make it useful to classmates: some easy to remember takeaways
4. the “so what” question
5. be prepared to answer questions

general directions (always the same):

- submit ps into Sakai's dropbox by the beginning of the class on the day it is due (ps are due in one week from the date being posted unless stated otherwise)
- preferably submit as pdf or txt (word sometimes mutates contents)
