outline

gis career

misc: basics again

- ◇ need all gis (and other data), not just .shp
- ◇ use graduated ramp for continuous; categorized for categorical
- ◇ quality v quantity
- ◇ interpret everything you show or drop it!
 - (if it's not worth your discussion, why is it in the map?)

links again

- ◇ in-depth but easy to navigate reference on qgis

<http://www.qgistutorials.com/en>

new links

- ◇ QGIS FAQ http://hub.qgis.org/projects/quantum-gis/wiki/How_do_I_do_that_in_QGIS

gis career

academia: assisting faculty

- ◇ most faculty want maps but lack gis skills
- ◇ this is where you come in
- ◇ ask faculty around if they need help with data
- ◇ don't sell yourself cheap
 - ask to be a coauthor
 - make \$

postdoc/research institutes/think tanks etc

- ◇ many prestigious universities offer postdocs positions
 - often helping prestigious faculty with data
- ◇ money is not great
 - but you have all of the other benefits of academia
- ◇ same with research institutes
 - they have a ton of data
 - and need people like you to map it

non-academic, real world jobs

- ◇ any organization has data
 - libraries, gas stations, fire departments, hospitals, etc
- ◇ just search for gis jobs

class evaluations

- ◇ i very much care about this class
- ◇ and want to develop it further in the future
 - possibly have intro and advanced gis
- ◇ comments/suggestions are very welcomed!

let's stay in touch

- ◇ i am always happy to discuss gis and
 - your future gis endeavours
- ◇ let's stay in touch!
