## Real GDP, Real Wages and Trade Policies in the U.S. (1947-2010) Index (1947=100)

## U.S. Productivity and Real Hourly Compensation (1948-2013)

**Note:** Data are for average hourly compensation of production/nonsupervisory workers in the private sector and net productivity of the total economy. "Net productivity" is the growth in the output of goods and services minus depreciation per hour worked.
