

ps0: upto 2 points of extra credit

[version: Tuesday 4th February, 2020 19:30]

- 1
 - produce a one page outline or an abstract or a summary of what you'd like to write a paper about in this class
 - be as specific as possible
 - and then it should snowball into all other ps and final project

comments from 2020

- do incorporate stuff we talked about in class like research design, inus condition, etc; be clear about the relationship you want to analyze, what is X, Y, Z etc
- and have a hypothesis! clear statement about how x affects y up or down!!
- always must do lit review, if just a quick one like couple hours, even to produce an outline <https://theaok.github.io//generic/howToGoogle>

general directions (always the same):

- submit ps into Sakai's dropbox by the beginning of the class on the day it is due (ps are due in one week from the date being posted unless stated otherwise)
- preferably submit as pdf or txt (word sometimes mutates contents)
- note, if something unclear, you may ask questions in your ps, and i will answer in class
- if class is small, be prepared to briefly present the ps, no need for slides, can just use submission pdf, but be ready to explain and answer questions
