

ps4: due in 2-3 weeks, mid nov

[version: Tuesday 7th October, 2025 11:31]

1. another draft—write based on covered material and building on my comments on your previous ps—don't forget about inline response to **all** comments on ps3!
2. ideally latex or google doc link; or may submit as txt or pdf into Canvas
3. as always, along with the writeup do submit the code! (dofile, R code, Python code, etc) AND dataset OR give exact link to the dataset and its decription so i can download it

have track changes! (so i can see what you did relative to last one)

this class is about paper writing—we should meet multiple times say 5-10, say every 10 days or every 2 weeks or so, one-on-one to keep moving your paper ahead

collaborate with classmates, both officially—working together on ps and submitting together, and unofficially—exchanging ideas, discussing together, commenting on each other, meeting for coffee, etc, your topics will largely overlap and you can learn and benefit from each other
