

Geography of Colombian Life Satisfaction

Saturday 25th April, 2026 16:32

XXX TODO ADD TO EBIB AS KEYWORD PAPER-CODE-NAME AND TAG WITH EBIB KEYWORDS

This paper is about geography of Colombian happiness.¹ We start with departments/provinces, then move to cities/municipalities, and finally finish up with urban-rural and farmers.

about colombia boilerplate like 2nd biggest land mas and pop in lat am? one of the happiest that table from fools paradise

and need about geography like goog 'gepgraphy of colombia' in goog scholar and normal goog

about roads etc ranked one of thw worst and airports

We know little about colombian happiness: my paper, stiupid burger as cited in my paper, and that govt report i cite in my paper!!
do skim thru it!!

1 Data

We use a great source of data ECV. We use 2023 edition.

2 Departments/Provinces

there are 166k missing out of 242k, we conduct robustness check in appendix using 2021 wave

the map is below, table including number of observrations per province is in appendix

3 Cities/Municipalities

4 Urban-Rural and Farmers

While most developed countries cities are unhappy and indeed unhappy city is a common pattern across the world (?), it is not always the case in devloping countries.

here boilerplate from happy col unahhpy bog: that cities are growth engines ? and ? and developing countries like colombia do need economic growth hence role for cities is gretaer than in already develpd countries

and there is paradox of happy peasant and unhappy millionaire ?

though not so much in colombia, urban and rural are about same happy, except by income: bar chart by income category bu urb
rur as in raman

¹Following usual practice in social indicators research terms happiness and life satisfaction are used interhchangeably, and specifically we mean cognitive and evaluative life satisfaction rather than affective happiness.

ONLINE APPENDIX (Supplementary Online Material (SOM))

[note: this section will NOT be a part of the final version of the manuscript, but will be available online instead]

```
. tabstat ls, by(lwd7) stat(mean sd) format(%9.1f)
```

Summary for variables: ls
Group variable: lwd7 (RECODE of lwd (do what you like))

lwd7	Mean	SD
0-4	5.6	2.7
2	7.6	2.3
3	7.6	1.8
4	8.0	1.5
5	7.8	1.9
6	8.2	1.5
7	8.9	1.5
Total	8.3	1.9

.9

5 Reestimation Using 2023 ECV

2021 May be biased say bc of covid, especially that it peaked in colombia in 2021 <https://coronavirus.jhu.edu/region/colombia>(by 2023 used in the paper it pretty much cleared). But it a useful robustness check, if covid didnt change much , then it should be pretty stable

and it was quite high mortality in col <https://coronavirus.jhu.edu/data/mortality>

5.1 Departments/Provinces

overall results are similar to 2023 reported in the body of the paper

Table 1: Life satisfaction by department.

department	life satisfaction 2023	total 2023	obs	non-missing life satisfaction 2023	department	mean life satisfaction 2021	total observations 2021	non-missing life satisfaction 2021
Amazonas	8.3	276		245	Amazonas	7.6	423	365
Antioquia	8.2	5499		4729	Antioquia	8.3	6036	5060
Arauca	8.1	974		773	Arauca	8.1	1103	868
Atlántico	8.3	3144		2311	Atlántico	8.0	2338	1799
Bogotá, D.C.	8.2	4688		3446	Bogotá, D.C.	8.1	5337	3810
Bolívar	8.2	2584		2258	Bolívar	8.1	2495	2156
Boyacá	8.0	4129		3649	Boyacá	7.8	4638	4122
Caldas	8.4	2822		2555	Caldas	8.2	3335	3005
Caquetá	8.1	2547		2018	Caquetá	7.9	2846	2249
Casanare	8.0	1749		1370	Casanare	8.1	2051	1457
Cauca	7.7	2580		2244	Cauca	7.9	2572	2287
Cesar	8.3	2224		1717	Cesar	8.0	1833	1510
Chocó	7.6	857		754	Chocó	7.9	1016	913
Cundinamarca	8.1	3818		3322	Cundinamarca	7.8	4233	3684
Córdoba	8.1	2706		2240	Córdoba	8.0	2226	1933
Guainía	7.7	327		273	Guainía	7.4	350	274
Guaviare	8.2	700		457	Guaviare	8.0	621	411
Huila	8.1	2961		2322	Huila	8.0	2999	2407
La Guajira	8.2	951		750	La Guajira	7.9	988	736
Magdalena	8.2	2458		2096	Magdalena	8.0	2110	1710
Meta	8.2	3683		2752	Meta	8.1	3862	2817
Nariño	7.7	2284		2034	Nariño	7.4	2847	2492
