1 Research

Since 2017, when I have submitted my materials for promotion to associate professor with tenure, I have published 37 peer reviewed articles, including 7 in *Cities*, a journal with impact factor (IF)=7.8¹ higher than widely considered the top journal in public administration in the US, *Public Administration Review* with IF=6.2². For detailed scientometrics see Appendix.

I have also published # of articles (add lonnie rubia now minor revision) in *Social Indicators Research*, and # in *Applied Research in Quality of Life*, both leading/main journals in my field of quality of life, wellbeing, and life satisfaction. There are several works worth mentioning.

My main area of research has been urban-rural happiness gradient, a term I have coined in my early paper on the topic: An urban-rural happiness gradient B.J.L. Berry, A. Okulicz-Kozaryn - *Urban geography*, 2011

articles on urb-rur hap gradient throughout, esp after 2017 do mention micah paper religiosity voluntas ditalia paper religiosity and latin am inc col fools paradise etc

2 Teaching

publishing with students—academic path: and it works: shourjya sipri, aditi virginia tech, michael ditalia RU camden

Teaching: old fashioned critical thinking, no indoctrination so popular these days

from that response to jargo: prioritize transfer of knowledge and learning, not ornamented ceremony; seems to be working: Eric's email that it works in practice, yanan, prakash, that student that got job at philadelphia school district; dodda. ,etc

Something I have missed as a student, and promised myself I won't do on the other side as an instructor. I have found almost all instruction to be fluffy, ornamented, grandiose presentations, where form took more space than matter. Also that paper in scientometrics. And even transfer of knowledge, seemed like most of it wasn't essential, important, helpful to me—plainly speaking most of the work was waste of time. Now as an instructor I strive to focus only on most important things and teach in most simple and straightforward way and also decrease amount of instruction and increase interaction: discussions, presentations, flip the class etc. I believe that these changes are even more important in current reality: short attention span, mental health problems, AI, etc.

Note it is not watering down the curriculum. i provide plenty of extra bonus materials so that it is customized to a student, doesn't overwhelm with unnecessary stuff, but provides enough depth and individual learning path. Seems to work as evidenced by student publications, jobs, and feedback.

I make sure i am available and approachable for students spending extra time outside of classroom: working on papers, being accessible via zoom and in person etc including when on sabbatical, eg spring 2026 have 4 students enrolled in my dissertation hours

all my classes encourage and give extra credit for civ eng

also note i largely teach methods classes, which often receive lower evaluations

one highlight is unusually heavy curriculum development. Since coming to Rutgers-Camden in 2012, I have taught over 10 different classes, including developing brand new 3 courses in 2023 for our new data science program

i strive to improve my teaching: that ru idt course, reading on it eg [nature.com](https://www.nature.com) [chronicle.com](https://www.chronicle.com) and [insidehighered.com](https://www.insidehighered.com)

i am updating materials each time I teach a class.

3 Service

My service mostly builds on and derives from my main focus and strength, research. I provide such service in two main ways: 1) to the profession/scholarly field, and 2) to students.

I review about 3-4/mo or 36-48/year papers for journals, including the top journals such as Journal of Personality and Social Psychology and Public Administration Review (see appendix for details). Reviewing is an essential foundation of scholarly fields, and it is increasingly in short supply—something I can attest to as an editor of a journal. Since January 2024, I co-edit Social Indicators Research, the leading journal in my field of quality of life and wellbeing. My editorial philosophy is to be mentor and helper, not just gate-keeper—for instance, I am often in favor of revision prior to external review, and I try to guide the authors, especially the junior ones.³

My research-oriented service over past 6 years 2020-2026 to students is: published 10 peer-reviewed articles with students as co-authors [!!!??TODO adding current sir paper flexi work hours rubia ebshey lonnie], supervised 8 dissertations (4 graduated; 4 in-progress), served on 11 dissertation committees, supervised 6 data science master theses, served on 2 master thesis committees in other social science, and supervised 15 independent studies. I have also led brown bag seminars and organized a workshop on academic publishing.

And I am very excited about bringing to campus an award winning⁴ junior professor from Germany as a visiting scholar for 2 months in Fall 2026: Leonie C. Steckermeier⁵. Leonie is a productive scholar not only benefiting my research, but also already 2 of our doctoral students⁶

I contribute service to the campus and department. Over 2018-2022 I have led the development of a new MS in data science and associated certificate program. This was a substantial undertaking and also somewhat challenging as the newly created programs are located outside of my home department. I have been serving since 2022 as a director for data science certificate.⁷

sep 2025 - jul 2026 20hrs per week; supervised 2 courtesy appointment to work as a Volunteer Researcher in the Department of Public Policy Raman And Dhayra work with me on research but also helped students in my class.

I frequently serve as both ad hoc chair and member on Advancement and Promotions (A&P) committee. I find this service fulfilling. I contribute to promoting quality faculty in our social sciences and I learn about my colleagues. Usual committee service is enumerated on the CV.

While research-oriented service is my strength and passion, and usual campus and departmental service is my duty, I am also mindful of Rutgers-Camden public and community service mission. I agree that as a public university, we also need to provide service to the public and community. I have assisted a number of Rutgers-Camden students in their community projects over past 5 years serving as a faculty advisor for, for instance: Olorunfunmi Adebajo's internship at the Camden County Community Development Office's Homelessness Assistance Unit,⁸ Marlo Rossi's project at Walter Rand Institute and other projects on abortion,⁹; and Ojobo Agbo Eje: "Camden Health Equity Data Visualization Initiative" project.¹⁰

New Jersey first, but I have been civically engaged outside of the Garden State as well. For instance, I have used my data management skills to assist with data collection and management for Ohio Business Round Table, and Michigan Economic Competitiveness Study.

³I am grateful to the editor of Journal of Applied Psychology who has guided me when I was a junior author.

⁴ISQOLS Prize for the Best Dissertation on Quality of Life, Well being, and Happiness, 2nd prize, 2023; Best PhD Dissertation of the Faculty of Human Sciences, Dissertation Award of the Otto von Guericke University Magdeburg for outstanding research achievements in the context of the dissertation, 2022; Second prize of the Fritz Thyssen Foundation for the best social science paper in German for the article "Eine Krise der sozialen Anerkennung? Ergebnisse einer Bevölkerungsbefragung zu Alltagserfahrungen der Wert- und Geringschätzung in Deutschland.", 2019

⁵<https://scholar.google.com/citations?user=xjkPIhwAAAAJ&hl=de>

⁶Michael J. D'Italia is our recent PhD graduate, and Erick E. Watt-Udogu our current PhD student—we have monthly or so zoom meetings where we are already working on papers.

4 Appendix

4.1 Research

scientometrics: as per google scholar i have more than doubled my citation since 2017, when I have submitted my materials for promotion to associate professor with tenure, from 163 to 353 in 2025; according to scopus <https://www.scopus.com/authid/detail.uri?authorId=23061538900> i have had about 4 indexed publications per year since 2017 and also my citations more than doubled between 2017 and 2025

4.2 Teaching

address low swb class eval bc on angela like cp paste all verbal stuff from 3 students incl 2 paraguay, and from my response to patrice

4.3 Service

Reviewing for journals: journals and counts are in the CV on p. 4: https://theaok.github.io/okulicz_kozaryn_cv.pdf#page=4
